

8 June 1949

MEMORANDUM FOR THE RECORD

SUBJECT: Travel and Transportation to Far East Command Area

25X1

1. At a meeting held this date, the above subject was discussed

[REDACTED]

25X1

2. Due to the unsettled conditions in the Far East, it has been determined that in specific cases recommended by the Branch and office of ADSO the permanent station of ESD-44 employees proceeding to that area will be FEC (Far Eastern Command) and that such employees and dependents will be routed through [REDACTED] there to await further instructions to proceed to a specific permanent headquarters. In such cases, per diem is authorized for the employee and dependents, in accordance with regulations. However, the Chief of Station should determine in each case that the payment of per diem is appropriate.

3. Household effects will not be shipped until the specific headquarters is determined. Therefore, storage in the U. S. will be authorized pending such determination. (See memo 18 March, CFB to ADSO). Where it is deemed appropriate, 3,000 pounds will be packed for shipping prior to storage. The remainder of household effects up to the maximum authorized by regulations will be loose-packed and stored. Automobiles, if authorized, may be stored pending ability to ship. Automobiles will not be boxed or crated prior to ability to ship.
